

Otto Bock®

QUALITY FOR LIFE

Custom-carved to fit. Made to last.

Introducing Vinyl Covering on OBSS Seat Cushions!

The industry leader in custom carved, digitized seating systems now brings you a new cover option that will save your Long Term Care referral sources time without sacrificing the quality of the digitized fit.

Available Now!

- Easy to clean; no covers to wash. Patient downtime out of their seating system is minimized; caregiver time devoted to cushion cleaning is minimized.
- Covering is moisture repellant: foam cushion will not degrade due to spills or incontinence.
- Covering is durable: difficult for the impaired patient to pick apart, chew, or shred.
- Easy to mount to mobility base: t-nut assembly available.
- Compatible with OBSS digitizing protocol: CRTS time is optimized—more time to spend with your customers and patients.
- Industry-leading accuracy and delivery times.
- Three color options: black, royal blue, and gray.
- Available in standard or firm foam.
- Developed collaboratively with Gillette Children's Specialty Healthcare, a national leader in clinical solutions for disabled children and adults.
